SUBJECT: SPM 12-9-05 / 04-256 / Lakeside Townshops Building I / 5780 South University Drive / Generally located on the northeast side of Stirling Road and University Drive

AFFECTED DISTRICT: District 2

TITLE OF AGENDA ITEM: SPM 12-9-05 / 04-256 / Lakeside Townshops Building I / 5780 South University Drive

REPORT IN BRIEF:

The subject site is a 79,405 sq. ft. (1.82 acre) of land situated within the approved master site plan for Lakeside Town Shops. The subject site is located along the center-western boundary line adjacent to University Drive. The petitioner is proposing a one-story 10,280 Sq. Ft. Retail Building. The subject site is currently a vacant out-parcel and is zoned UC, Urban Commercial District with an underlying land use of Commercial. To the east is Exotic Acres single-family homes and a plant nursery zoned A-1, Agricultural District and R-1, Estate District, to the south is Silverado single-family homes, and a vacant lot zoned RM-5, Low Medium Density Dwelling and a B-3, Planned Business Center District. To the west is University Creek Shops zoned B-2, Community Business District.

The proposed retail building mirrors Lakeside Town Shops architectural design. The building distinguishes itself by exterior walls painted with earth tone colors. The design consists of clean, simple, straight lines. Rectangular doors and windows are located proportionately apart from one another. At the base of all exterior walls is stone veneer to match the Lakeside Town Shops. Fabric awnings and arced entry canopies are placed at each window and/or door reinforcing. As per land development code, all mechanical equipment on the roof will be hidden from public view.

Access into the site is via modified vehicular openings located at the northern and eastern portions of the subject site from internal roads within Lakeside Town Shops. Vehicular traffic enters and parks around the retail building. A one-way drive aisle and drive-thru create a counter-clock traffic rotation along the eastern portion of the site.

The subject site is located at a commercial node, the intersection of University Drive and Stirling Road. The proposed retail building is a compatible use with the existing retail plazas to the west across University Drive. The proposed retail building presents an architectural style of stone and other natural materials consistent with the Town's image of valuing natural areas and elements. Additionally, the retail building is compatible with the surrounding commercial structures in terms of mass, scale, and architectural style.

Comprehensive Plan Considerations

Planning Area:

The subject property falls within Planning Area 10. This Planning Area is generally located north of Stirling Road, south of Griffin Road, east of Pine Island Road, and west of SW 76 Avenue. Pine Island Road, a major north/south arterial, on the western limits of this planning area provides through access from Griffin Road to Stirling Road. Commercial development of retail centers and office buildings line the University Drive corridor. The east side of this corridor is predominantly small-scale commercial development, with multi-family residential development (one existing, one proposed) and plant nurseries on the northern half of the corridor, and commerce park development and cattle grazing on commerce park-zoned lands on the southern half. Commercial development also exists along Griffin Road within this planning area. Several small-scale single-family residential communities, two trailer parks totaling approximately 30 acres in area, and an 8-acre industrial park are located within this planning area, together with six parcels zoned for community facilities uses. These include, but are not limited to, a regional library, multiple church uses varying scales, a Girl Scout campground facility, and a private school.

Broward County Land Use Plan: The subject site falls within Flexibility Zone 102.

Applicable Goals, Objectives & Policies:

Future Land Use Element, Objective 4: Pursuant to the adopted Davie Future Land Use Plan Map, land uses, intensities and densities shall be distributed and concentrated in such a manner so as to promote an economically sound community and discourage urban sprawl.

Future Land Use Element, Policy 7-4: Commercial land uses shall generally be located with access to primary transportation facilities including interstates, highways, and arterials. Commercial uses located on arterials not designated by the Future Land Use Plan Map as Commercial corridors should be limited to the intersection of two arterials or arterials and interstates. Consistent with Policy 7-1, vacant land with such access shall be evaluated for potential Commercial use.

Future Land Use Element, Policy 17-1: Lands designated for non-residential use shall be located in a manner, which facilitates development, but does not adversely impact existing and designated residential areas.

Future Land Use Element, Policy 17-3: Each development proposal shall be reviewed with respect to its compatibility with adjacent existing and planned uses.
